Click the + icon for more information. For more details on which lessons he or she did not pass, click the student name to navigate to their Online Instruction (Student) report.

Understanding *i-Ready* Report Terminology:

Time on Task includes the total time students spent working in Online Instruction during a specific week or date range. All lessons are counted in Time on Task, including *i-Ready*-Assigned lessons and Teacher-Assigned lessons that have been completed, are in progress, or that were canceled after a student started working.

The information in the *Online Instruction (Class)* report was previously found in *Instructional Usage* and *Class Response to Instruction reports.*
